Noctilien: practical and cheap!

If you don't have a big budget but still want to enjoy Paris at night, taking the Noctilien night bus would be a great option! Most of the Noctilien buses start their journey in big transport hubs, such as the main Parisian train stations or in the Châtelet area.

Both the Navigo pass and also regular transport tickets like the "Ticket+" for zones 1-2 can be used on the Noctilien night bus.
